WORK EXPERIENCE

Datanova (Senior Full stack Developer) Ahmedabad

March 2025 - Present

Project 1: Mentra

- Developed and optimized features for mentra.com, enabling seamless collaboration between recruiters and job seekers.
- Technologies used: **GraphQL, Prisma, Stytych, PostgreSQL.**

Jithvar Consultancy Services (SDE - I) Lucknow

March 2024 - March 2025

Project 1: Whatsapp Business Accounts Integration System ([WABAIS](#)):

- Designed and implemented both **frontend and backend** for WhatsApp Business integration platform enabling businesses to do real-time messaging, campaigns, and promotions.
- Features which I had implemented: **Bulk contacts management, Templates CRUD, real-time messaging** (templates, text, images, videos, documents, replies, and canned messages) , **bulk-messages, scheduled-message, chatbots, multi-level authentication, subscription management, invoicing, and Razorpay gateway** , **customer analytics** using **pie charts and bar graphs** to visualize data.
- Technology used: **React.js, Redux, Node.js, Express.js, MongoDB, WebSockets, AWS-S3, Redis, Message Queues, Javascript**
- Scalability: System can handle **0.5 million messages per day**
- Achievement: **Increased company revenue by 100% and increased active customers to 100+**

Project 2: Raftaar News:

- Designed and implemented both **frontend and backend** for news portal ([Raftaar.in](#))
- Features which I had implemented : **Infinite Scroll, Lazy Loading, Caching, AMP Stories, embeds such as Youtube, Instagram, and Twitter, export data into Excel sheets, Drag & Drop, auto share news to social platforms like Facebook, WhatsApp, Twitter .**
- Integrated **Google Ads and MGID Ads** for monetization, resulting in **70% revenue increase.**
- Implemented **meta data** support for **SEO optimization** and generated **sitemaps** to ensure efficient

indexing and crawling by search engines, enhancing the **site's visibility by 90%**

- Implemented **Server-Side Rendering (SSR)** to enhance page response time and improved seo
- Technology Used: **Next.js, Express.js, Node.js, MongoDB, AWS-S3, Redis, TypeScript.**
- Scalability: **Average daily traffic is 40k** and **search impressions are around 0.5 million**
- Achievement: **Increased company revenue by 100% and customer traffic by 60%**

Cogoport (SDE - I) Mumbai

July 2023 – December 2023

- Implemented features like **Rfq** (Request for Quotation) , **Contracts** and **shipment planner**
- Built **FCL Local Freight as a stand alone feature**
- Built **Recommendation System** for predicting the booking parameters of a freight based on data of previous bookings, resulting in **10% more user engagement and revenue**
- Built an **automated system to send emails for eSign**, based on customers subscription plan
- Technology Used: **React, Ruby on Rails, PostgreSQL**

SELF PROJECTS

ECard

[source code](#)

- Features: User authentication, add to cart, review and rating system
- Separate login for admins and users
- Technology used: **React, Node, Express, Redux, MongoDB**

InstaClone

[source code](#)

- Features included: OAuth 2.0 authentication, users can post blogs, do likes, edit and delete blogs
- Technology used: **React, Node, MongoDB, Express**

ACHIEVEMENTS

- **Leetcode rating:** 2046 (Best global rank: 221)
- **Codechef rating:** 1939 (Best global rank: 382)
- **Codeforces rating:** 1400+
- **Hacker Rank:** 6 star (Gold badge)

POSITIONS OF RESPONSIBILITY

- I was **Team Lead** in Jithvar Consultancy Services Pvt Ltd
- **Web Developer Mentor at Bfx prism: Teaching** concepts of Web development

EXTRA CURRICULAR ACTIVITIES

- Captain of Cricket Team and Badminton Team in IIT DHANBAD
- Play musical instruments like Flute, Piano
- **Chess Player having rating (1420+)** in Rapid Format (lichess platform)
